

Alfa Laval DOC16

Brazed plate heat exchanger for oil cooling

Alfa Laval DOC - Dedicated oil coolers are brazed plate heat exchangers with robust connection flanges, which are suitable for hydraulic oil cooling applications.

Applications

- Oil cooling

Benefits

- Compact
- Easy to install
- Self-cleaning
- Low level of service and maintenance is required
- All units are pressure and leak tested
- Gasket free
- Very robust connection flanges
- Integrated mounting bracket

Design

The brazing material seals and holds the plates together at the contact points ensuring optimal heat transfer efficiency and pressure resistance. Using advanced design technologies and extensive verification guarantees the highest performance and longest possible service life.

Asymmetric channels provide optimal efficiency in the most compact design.

The robust connection flanges with internal threads are specifically designed for oil cooling under tough operating conditions and reduces costs because of easy installation. Additionally, the flanges allow significantly higher torque at installation than conventional connections.

Technical Data

Standard materials

Cover plates	Stainless steel
Connections	Stainless steel
Plates	Stainless steel
Brazing filler	Copper

Dimensions and weight¹

A measure (mm)	$8.8 + (2.16 * n)$
A measure (inches)	$0.35 + (0.09 * n)$
Weight (kg) ²	$0.27 + (0.04 * n)$
Weight (lb) ²	$0.59 + (0.09 * n)$

- n = number of plates
- Excluding connections

Standard data

Volume per channel, litres (gal)	A (S1-S2): 0.030 (0.0078)
	A (S3-S4): 0.024 (0.0063)
	H: 0.027 (0.0070)

Max. particle size, mm (inch)	1.1 (0.043)
Max. flowrate ¹ m ³ /h (gpm)	3.6 (15.8)
Flow direction	Parallel
Min. number of plates	4
Max. number of plates	60

- Water at 5 m/s (16.4 ft/s) (connection velocity)

Dimensional drawing

Measurements in mm (inches)

Design pressure and temperature

DOC16 – PED approval pressure/temperature graph

Designed for full vacuum.

Alfa Laval plate heat exchangers are available with a wide range of pressure vessel approvals. Please contact your Alfa Laval representative for more information.

NOTE: Values above are to be used as an indication. For exact values, please use the drawing generated by the Alfa Laval configurator or contact your local Alfa Laval representative.

How to contact Alfa Laval

Contact details for all countries are continually updated on our website. Please visit www.alfalaval.com to access the information direct.
